

Siddhesh Mithbavkar

Frontend Developer

Jogeshwari-E, Mumbai | 9004738214

siddheshmithbavkar98@gmail.com

Objective

Over 2 years of experience as a **Frontend Developer**, specializing in creating responsive, user-friendly interfaces using **HTML, CSS, JavaScript, Bootstrap 5, Tailwind CSS**, and **ReactJS**. Skilled in developing dynamic components, optimizing performance, and delivering seamless user experiences.

Skills

- HTML
- CSS
- Javascript
- Bootstrap 5
- Tailwind CSS
- ReactJs
- Git (Version Control)
- JQuery
- Responsive Design

Experience

- Mobavenue Media Pvt. Ltd 1/09/2022 - 1/11/2024
Frontend Developer
 - 1.Designed and developed visually appealing and user-friendly landing pages for clients.
 - 2.Optimized landing page speed and performance using ImageKit for image compression.
 - 3.Implemented security measures, including Cloudflare integration, to protect websites from malware.
 - 4.Conducted cross-device testing to ensure responsiveness and seamless user experience.
 - 5.Managed website hosting and deployment via Namecheap cPanel for smooth site management.
 - 6.Configured and installed SSL certificates to secure websites and enhance user trust.
- Infonet 1/09/2021 - 1/04/2022
Full Stack Developer Intern
 - 1.Delivered training on **HTML, CSS, JavaScript, Bootstrap 5, and Tailwind CSS** to students of varying skill levels.
 - 2.Designed and structured training modules to ensure clear understanding and practical implementation of front-end technologies.
 - 3.Facilitated hands-on sessions and live coding exercises to enhance student proficiency in building web applications.
 - 4.Assisted students in creating real-world projects with frameworks like Bootstrap 5 and Tailwind CSS to reinforce responsive design principles.
 - 5.Provided mentorship and guidance, resolving technical queries and improving problem-solving skills in web development.
 - 6.Collaborated with faculty to evaluate student progress and gather feedback to enhance the training process.

Projects

- **Employee Management System -**

Developed a feature-rich Employee Management System using ReactJS and Context API to streamline task management within an organization. Key functionalities include:

- Admin Dashboard: Enables administrators to assign tasks to employees efficiently.
- Employee Task Management: Allows employees to view tasks categorized as active, completed, failed, and new.

The project demonstrates strong proficiency in ReactJS, state management with Context API, and a focus on building user-friendly, functional interfaces for role-based task management.

Technologies Used: **ReactJs, Context API.**

- **Casinobinge -**

- Developed www.casinobinge.com using HTML, CSS, JavaScript, and Bootstrap 5.
- Designed a responsive, user-friendly interface.
- Integrated Owl Carousel, Font Awesome, ImageKit, and Cloudflare.
- Optimized performance using Cloudflare caching and delivery.
- Enhanced image handling with ImageKit.
- Added interactive features like carousels and animations.

- **QR Code Generator -**

- Developed a dynamic QR code generator allowing users to create QR codes for URLs, text, and other data types.
- Integrated Rapid API for generating QR codes, ensuring efficient and scalable performance.
- Designed a responsive and user-friendly interface using Bootstrap 5.
- Enhanced user experience with seamless input validation and error handling in JavaScript.
- Focused on clean and modern UI design for optimal accessibility and usability.

Technologies Used: **HTML, CSS, JavaScript, Bootstrap 5, Rapid API**

Education

- Mumbai University 2021
Bachelor of Engineering(Computer Science)
6.84 CGPA
- Mumbai Board 2016
HSC
