

Siddhesh Mithbavkar

Frontend Developer

Jogeshwari-E, Mumbai

[9004738214](tel:9004738214) | siddheshmithbavkar98@gmail.com

Objective

Frontend Developer with **2+ years of experience in ReactJS, Bootstrap, Tailwind CSS, and JavaScript**, skilled in building responsive and user-friendly web applications. Seeking a role to contribute expertise, optimize performance, and grow in a dynamic team.

Experience

- Mobavenue Media Pvt. Ltd** 1st Sep 2022 - 22nd Nov 2024
Frontend Developer
 1. Designed and developed user-friendly landing pages.
 2. Optimized page speed using ImageKit for compression.
 3. Secured websites with Cloudflare against cyber threats.
 4. Ensured responsiveness with cross-device testing.
 5. Managed hosting and deployment via Namecheap cPanel.
 6. Installed SSL certificates for website security.
- Infonet** 21st Sep 2021 - 1st April 2022
Full Stack Developer intern
 1. Conducted training sessions on HTML, CSS, JavaScript, Bootstrap 5, and Tailwind CSS.
 2. Designed structured training modules for effective learning of front-end technologies.
 3. Guided students through hands-on coding exercises and real-world projects.
 4. Assisted in building responsive web applications using modern frameworks.
 5. Provided mentorship and resolved technical queries for students.
 6. Collaborated with faculty to evaluate student progress and improve training.

Projects

- Employees Management System (ReactJS, Context API)**
 1. Task Assignment: Admin can assign tasks to employees.
 2. Task Categories: Employees can view tasks categorised as New, Active, Completed, and Failed.
 3. State Management: Utilized Context API for efficient state handling.
 4. User Roles: Implemented role-based functionalities for admins and employees.
 5. Interactive UI: Built a responsive and user-friendly interface using ReactJS.
- Movie Recommendation (ReactJs, TMDB API)**
 1. Developed a Movie Recommendation Application using ReactJS and TMDB API.
 2. Fetched and displayed popular movies using TMDB API integration.
 3. Implemented a favorites feature allowing users to add and manage their favorite movies.
 4. Used React state management to handle user interactions efficiently.
 5. Designed a responsive UI with React and CSS for an engaging user experience.
 6. Optimized API calls to ensure smooth performance and data fetching.
 7. Utilized React Context API for efficient global state management.
- Weather Application (HTML, CSS, JavaScript, Bootstrap 5, Rapid API)**

1. Real-time Weather Data: Fetches live weather updates using Rapid API.
2. Current Temperature Display: Shows the latest temperature of the searched city.
3. Weather Condition Indicator: Provides weather details like sunny, rainy, or cloudy.
4. Dynamic Weather Icon: Updates the icon based on the current weather condition.
5. JavaScript Fetch API: Utilised fetch API for seamless data retrieval.
6. Responsive UI: Designed with Bootstrap 5 for a clean and adaptive layout.
